

PROJECTS

Objectives	Improve demand forecasting and inventory planning for food products across restaurant clients to reduce waste and stockouts.
Achievements	- Reduced excess inventory by 10% through statistical demand forecasting and data driven ordering decisions. - Identified ₹2L+ annual cost savings by analyzing pricing, vendor performance, and delivery metrics in Excel. - Delivered weekly/monthly KPI and margin reports for 15+ restaurant clients, supporting better pricing and purchasing decisions.
Objectives	Design an inventory alert system to monitor stock levels and prevent overstocking or stockouts.
Achievements	- Built an Excel/Python-based alert system that flags low and excess stock in real time. - Helped cut product losses by tracking quality metrics and defect rates more systematically. - GitHub: gauravbhatia-bit/bhatia_traders_inventory_alert_system
Objectives	Analyze football match data to uncover performance patterns and predict outcomes for Berlin league teams.
Achievements	- Built comprehensive analysis covering match statistics, player performance, and team trends for Berlin football leagues - Created visualizations and predictive models identifying key success factors for local teams - Developed portfolio project showcasing data science skills in sports analytics using Python/SQL - GitHub: gauravbhatia-bit/berlin-football-analytics

EXPERIENCE

Manager, Bhatia Traders, Zirakpur, India		May'22-Jun'25
Responsibilities	- Forecasted demand using advanced Excel analysis to reduce excess stock by 10% and generate annual cost savings of over ₹2L through data-driven inventory decisions. - Delivered KPI dashboards and margin insights for more than 15 restaurant clients, enabling informed management decisions while simultaneously reducing product waste across locations. - Managed relationships with over 20 suppliers, leveraging purchasing and performance data to negotiate improved contract terms and pricing for sustained cost optimization.	
Quality Engineer, Chandigarh, India		Mar'17-Apr'22
Responsibilities	- Ensured production line quality through Excel-based monitoring and checks. - Conducted all quality inspections; maintained compliance across manufacturing	

ACADEMIC PROFILE				
Qualification	Institute	Board/University	Year	%/CGPA
Msc In Data Science, AI and Digital Business	GISMA University of Applied Sciences, Potsdam, Germany	GISMA	2025	Appearing
B.Tech (Civil)	University College of Engineering, Patiala, India	Punjabi University	2011-15	60%
Class XII	Kendriya Vidyalaya, Sector 47, Chandigarh	CBSE	2010	72%
Class X	Kendriya Vidyalaya, Sector 47, Chandigarh	CBSE	2008	82%

Academic Project	Developed comprehensive project management report for hospital construction, covering planning, budgeting, timelines, and risk management and methodologies (HYBRID).
Skills	Microsoft Excel, Python, Power BI, Machine Learning, Meta Ads, Adobe Illustrator

CURRICULAR ACHIEVEMENTS

Academic Achievements	- Delivered standout hospital construction project report in Project Management course - handled ₹10Cr budget & 50+ stakeholders. - Created impressive Berlin football analytics project using Python/SQL for Data Analytics coursework. - Demonstrated forecasting skills through sales/inventory analysis projects that achieved 10% inventory reduction.
